Mon Valley ICD

One South Linden Street

Duquesne, PA 15110

412.460.0390

The ICD offers some interesting new classes this spring-Fundamentals of Woodworking, Essential Lessons for Stock Market & Cryptocurrency Success, Locksmithing and Epoxy Countertops; along with returning favorites-Upholstery and Small Engine Repair. The Westmoreland County Community College offers many new classes for our active USW members; several classes are online and self-paced.

Two new classes came from ideas submitted by USW members—locksmithing and epoxy countertops. I am always interested in hearing from Steelworkers on class ideas. Remember, Steelworkers drive the ICD—it is your benefit and your program.

I look forward to a new year, and new classes.

Remember, learning is your benefit for life!

Donna Permigiani

Mon Valley ICD Program Coordinator

WHAT IS THE ICD?

The Institute for Career Development (ICD) is a contractually negotiated benefit for eligible members of the United Steelworkers and the companies that employ them.

ICD is a joint labor-management training program in which members participate in self-directed learning opportunities on their own time. Members can choose from a wide range of course offerings to learn new skills or simply brush up on old ones.

Each local program is overseen by a Local Joint Committee (LJC), which is made up of local union and company leaders. The ICD Coordinator runs the day-to-day operations of the program.

The LJC is responsible for all decisions regarding local staffing, finances and course offerings. Currently, ICD has 65 locations in the steel, tire & rubber, glass, container and utility sectors and 16 participating companies.

What makes the program unique?

Everything is geared toward making learning comfortable and accessible for Steelworkers. Our learning centers are conveniently located, usually on or near work sites or in a union hall.

Each site offers classes under the direction of the LJC. The LJC decides what courses to offer by documenting workers' needs and interests. They do this through surveys or by sending the program coordinator to talk to workers to get their feedback. Each Career Development Program is uniquely tailored for the Steelworkers at that location. It's a "bottom-up" philosophy that enables Steelworkers to drive the program.

Another important aspect of the program is learning confidentiality. Only the Steelworker and the Career Development staff know whether the Steelworker is there to brush up on basic skills or complete a college-level course. Computer-aided instruction supplements traditional classroom settings, small group sessions and one-on-one tutoring.

(CCAC) Community College of Allegheny County

South Campus

CCAC offers both credit & non-credit courses at their four main campuses as well as area centers throughout Allegheny County. As an accredited institution, most CCAC courses are approved for Tuition Assistance & eligible for Issuance 14 reimbursement. Through their Workforce Development program, CCAC continues to provide quality training through custom courses as well as online learning.

1750 Clairton Blvd Route 885
West Mifflin, PA 15122
www.ccac.edu

(DEC) Douglas Education Center

Douglas Education Center continues to transform itself by offering education & training to meet today's career opportunities. From their globally renown creative programs to health care & skilled trades, DEC offers accredited programs as well as ICD custom courses at their fascinating campus in downtown Monessen.

130 7th Street
Monessen, PA 15062

(PTA) Professional Training Associates, Inc.

Professional Training Associates is a leading provider of environmental health & safety training, specializing in OSHA & EPA required courses such as those governing asbestos & lead activities.

46 S. Linden St.
Duquesne, PA 15110

(WC-ATC) Westmoreland Community College Advanced Technology Center

Westmoreland College's state-of-the-art Technology Center provides experiential learning relevant to today's industries. Credentialed courses are offered in Welding, HVAC, Machining, Design, & Industrial Maintenance. Additionally, custom courses are offered in partnership with the Mon Valley ICD throughout the year.

1001 Technology Drive
Mt. Pleasant, PA 15666
www.westmoreland.edu

Contact the ICD Coordinator for more information & to enroll in these ongoing ICD Programs.

Pre-Learner Maintenance Training Program*

As per the Labor Agreement, this standardized training offers employees the opportunity to acquire the necessary skills & knowledge to potentially test at a higher level in order to enter the U.S. Steel Maintenance Technician Learner program. This program is self-paced through access to online Mechanical, Electrical, or Systems Repair topics correlating to the competencies required for Maintenance Technician. All class work can be completed online at the student's convenience. Any student who does not have access to a computer should contact the ICD Coordinator to make arrangements to use the ICD's computers.

Online, self-paced

Pre-Learner Entrance Requirements

- Be an active non-maintenance Steelworker
- Register with the ICD Coordinator by calling 412-460-0390
- Have a valid email address
- Take classes on their own time

**Completion of the online training does not guarantee qualification for a Maintenance Technician position or entry into the Learner Program. All additional requirements to become a Maintenance Technician or Learner must still be met.*

Commercial Truck Driver (CDL) Training –Class A & B

All-State Career School (West Mifflin, PA) offers customized training in tractor trailer driving toward obtaining a CDL license as a Class A or B operator. This 100-hour program combines classroom theory & on-the-road instruction with qualified instructors to prepare for the operator exam. Valid driver's license & physical exam will be required to obtain a CDL permit prior to training. Contact the ICD Coordinator to enroll.

More Information about All-State Career School at www.allstatecareer.edu

USS Fitness Program

Located at the Center for Fitness & Health (Belle Vernon, PA), this 36-month program offers a well-balanced combination of nutrition education & workout techniques to develop exercise regimens & a healthy lifestyle. Professional fitness trainers provide instruction & motivation at weekly classes, scheduled multiple times & days to accommodate shift work. New classes begin quarterly. Contact the ICD Coordinator to enroll.

More information about the Center for Fitness & Health at www.myhealthplex.com

ToolingU Manufacturing Skills Training

With more than 500 unique online classes, ToolingU provides training in an easy to navigate, interactive web-based environment. Comprehensive topics can be accessed through any internet connection 24/7 & include competencies in maintenance, engineering, welding, machining, safety & much more! One-year subscriptions are available. Contact the ICD Coordinator to enroll.

Online, self-paced

Catalog of courses & more information about ToolingU at www.toolingu.com.

Financial Fitness Workshop

Invest in Your Debt

In three hours, based on the same income you are earning today, you can fully learn to take control and eliminate your debts quickly. The concepts apply easily whether you are earning \$30,000 or \$300,000. In this three-hour workshop you will use your own debts and calculators to see how to shave decades off your mortgage and credit cards, and develop a wisely focused plan of reducing student-loan debt.

Lending institutions have camouflaged agendas that leave you feeling empty-handed at the end of the month. There are industry secrets that are kept from you and options of which you should be aware. This workshop opens the pathway to reverse the convoluted burden of compound interest. Its simple math renews hope for days when you will have extra cash in your pocket and your accounts. Doing nothing will damage your financial future for many years to come. Bring your personal debts and calculators.

Spouse attend free and skeptics are welcome! Invest in Your Debt and Spend Smart textbooks are included.

Mon Valley ICD

Thursday, 3/24/22

8:30 am to 11:30 am, 4:00 pm to 7:00 pm

1 session

Linda Banks Testa

NEW Certified Production Technician 4.0

Safety & Employability Fast Track Certification

Enhance your knowledge in topic areas including training and leadership, production teams and safety organization. Learn how to perform safety and environmental assessments, identify unsafe conditions and take corrective actions as well as how to utilize effective safety-enhancing workplace practices. This course is specifically designed for incumbent workers with a minimum of 3-5 years manufacturing experience.

Online, self-paced

2/28/22 to 5/31/22

NEW Certified Production Technician 4.0

Quality Practices & Measurement Fast Track Certification

Explore topics in basic measurement, precision measurement tools and dimensional gauging. You will learn to check and document calibration of gauges and other data collection equipment, participate in periodic or statistically based internal quality audit activities and inspect materials/product/processes at all stages of production to ensure they meet specifications. This course is specifically designed for incumbent workers with a minimum of 3-5 years manufacturing experience.

Online, self-paced

2/28/22 to 5/31/22

NEW Certified Production Technician 4.0

Manufacturing Processes & Production Fast Track Certification

Discover how to identify customer needs, determine resources available for the production process and set team production goals. You will learn basic principles of manufacturing processes: mechanical principles, gear drives, machine tooling and production control. This course is specifically designed for incumbent workers with a minimum of 3-5 years manufacturing experience.

Online, self-paced

2/28/22 to 5/31/22

“The ICD is a benefit unique to Steelworkers. It allows members to learn skills they are interested in, or even pursue new careers. By utilizing the ICD our members have an ability to shape their lives for the better.”

–Bernie Hall, District 10 International Staff Representative

NEW Certified Production Technician 4.0

Maintenance Awareness Fast Track Certification

Gain knowledge of how to perform preventative maintenance and routine repairs, monitor indicators to ensure correct machine operations, and recognize potential maintenance issues with basic production systems through topics such as basic electrical circuits, pneumatic power systems, machine control concepts, automation and operation modes. This course is specifically designed for incumbent workers with a minimum of 3-5 years manufacturing experience.

Online, self-paced

2/28/22 to 5/31/22

NEW Certified Production Technician 4.0

Full Fast Track Certification

The full Certification Production Technician 4.0 consists of all four stackable credentials: Safety and Employability, Quality Practices and Measurement, Manufacturing Processes and Production and Maintenance Awareness.

Online, self-paced

2/28/22 to 5/31/22

NEW Design Your Dream Home

If you could design your dream home what would it look like? Start with a basic sketch and finish your design using Autodesk Revit. Unleash your creativity and see your design turn into a 3-D model. This class is for entertainment purposes only.

WCCC-ATC

Wednesdays, 3/9/22 to 4/27/22

5:30 pm to 8:30 pm

8 sessions

Douglas Gengler

Machining Fundamentals

Students will be introduced to measurement tools, hand tools, milling machines, lathes and grinders. At the completion of this course, students will be able to setup and operate a vertical milling machine and horizontal lathe, be familiar with the tooling necessary to perform various tasks, perform basic cutting, drilling, and boring operations, perform calculations necessary to complete tasks, understand speeds and feeds, and understand all of the requirements and procedures necessary to perform a task safely.

WCCC-ATC

Saturdays, 3/5/22 to 4/9/22

8:00 am to 12:00 pm

6 sessions

George Slezak

Introduction to MasterCAM

This course is designed to assist the participant in understanding the principles of MasterCAM software. Upon completion of this course, students will have an understanding of the capabilities and limitations of MasterCAM software, be able to construct simple job plans, understand basic controls and commands of the program, formulate a basic program, run samples, make modifications and write backup procedures.

WCCC-ATC

Thursdays, 3/10/22 to 4/28/22

5:30 pm to 8:30 pm

8 sessions

George Slezak

AutoCAD Fundamentals

This program is designed to introduce the student to AutoCAD fundamentals and progress to an intermediate level 3 of understanding of the methods of creating and editing drawings using AutoCAD software. Topics to be covered include: drawing and editing commands, coordinate entry, creating and modifying blocks, hatching patterns, dimensional styles and variables, text style creation and plotting.

WCCC-ATC

Mondays, 3/14/22 to 5/2/22

5:30 pm to 8:30 pm

8 sessions

Pete Oblinsky

Plumbing for the Homeowner

Save on costly repairs that you can do yourself. This course will help you perform introductory plumbing repairs in your home. In this course we will cover how to replace a sink trap, install a flush valve, fix a leaking water closet, changing a fill valve and connecting supply lines.

WCCC-ATC

Fridays, 3/18/22 to 4/8/22

9:00 am to 12:00 pm

4 sessions

Evan Dickson

Introduction to SolidWorks

Take your idea from imagination to reality. Learn the basics of creating 3D designs using SolidWorks, the software used in the design and creation of products in the energy, construction, manufacturing and automotive industries.

WCCC-ATC

Wednesdays, 3/30/22 to 5/18/22*

5:30 pm to 8:30 pm

8 sessions

Pete Oblinsky

* No class on April 13

“I started taking classes through CCAC and received an associate degree in general studies, then continued with classes through Cal U Of Pa by utilizing the tuition assistance. I obtained a Bachelor of Arts in Sociology and am only a few classes short of a Masters of Education degree. The tuition assistance program through the ICD is a great opportunity for anyone that is seeking to continue their education. I would recommend for everyone to check it out and to use the resources that we have available to our membership.”

– Chris

Autodesk Fusion 360

Take the first steps into creating detailed 2D drawings based on 3D models. Fusion 360 is a cloud-based platform that allows users to focus on industrial design. With Fusion’s integrated high speed machining CAM functionality, you will be able to simulate movement in your creations and update the 2D drawings as changes are made.

WCCC-ATC

Tuesdays, 4/5/22 to 5/24/22

8:00 am to 12:00 pm

8 sessions

George Slezak

Basic Home Maintenance & Repair

Tired of having to call a handyman for small home repairs? Learn how to replace screens in doors and windows, easy fixes for common toilet problems, unclog a drain, install light switches and receptacles and change a furnace air filter.

WCCC-ATC

Fridays, 4/22/22 to 5/13/22

9:00 am to 12:00 pm

4 sessions

Evan Dickson

Basic CNC Setup and Operation

Students will learn to setup and operate CNC equipment using basic programs. Participants will also develop skills such as setting tool and work offsets.

WCCC-ATC

Saturdays, 4/30/22 to 6/4/22

8:00 am to 12:00 pm

6 sessions

George Slezak

Epoxy Countertops & Tables

In this lecture and demonstration-based class, students will learn about making and designing their own epoxy countertop, river tables and live edge/slab tables. We will discuss types of epoxies and their uses as well as properly preparing live edge slabs, designing river tables, redoing kitchen countertops and more. We will also be doing a demo pour for a cutting board. Additionally, each student will get the chance to practice and go home with their own sample board for pouring & creating resin art.

Irvin Local 2227

Tuesdays, 4/26/22 to 5/10/22

8:30 am to 11:30 am

3 sessions

Zachary Amend

Locksmithing

In this class, students will learn how to key up, re-key and master key residential knob locks. We will cover making keys by code, copying keys and making a key to lock without having a key. Students will be taught everything they need to know to re-key their house by learning how to gauge a key to set up a new lock. Information on where to purchase supplies and local locksmith organizations will be provided.

Mon Valley ICD

Thursdays, 6/2/22 to 6/23/22

8:30 am to 11:30 am, 4:00 pm to 7:00 pm

4 sessions

TBD

All classes are taught by Andrew Takach.

Lunch will be provided at all classes. All Safety and PPE will be provided.

Chef's Knife

This workshop is for those wanting to expand the forging abilities and go home with a hand forged knife made for daily use in the kitchen. Students learn forging techniques, use a power hammer and hydraulic press, as well as hand forging to shape your knife. Students will also learn the heat treat process and proper edge geometry needed for a knife designed for kitchen use. Other equipment used is a drill press, belt grinders, bandsaw, and milling machine.

Takach Forge

Saturday and Sunday, 3/12/22 and 3/13/22

8:00 am to 4:00 pm

2 sessions

Andrew Takach

Blacksmith Knife

A very beginner level forging project. Students will hand forge a small patch knife, sometimes referred to as a "blacksmith" knife. There are endless possibilities when it comes to making these knives. It is a very fun little project. Students will also do simple grinding, and basic heat treating.

Takach Forge

Saturday, 4/23/22

8:00 am to 4:00 pm

1 session

Andrew Takach

Damascus

This class covers the basic principles of forge welding and pattern development. Students will weld up several bars of Damascus and each student will go home with at least 1 bar of Damascus, from which they can make jewelry or knives.

Takach Forge

Saturday, 5/21/22

8:00 am to 4:00 pm

1 session

Andrew Takach

Financial Fitness Workshop

NEW Essential Lessons for Stock Market & Cryptocurrency Success

Thinking about investing but don't know where to turn? Gain confidence in stock market investing, and learn how to identify winning stocks and cryptocurrencies before they move higher.

Mon Valley ICD

Wednesday and Thursday, 3/30/22 to 4/7/22

8:30 am to 11:30 am, 4:00 pm to 7:00 pm

4 Sessions

David Wozniak, CMT

Retirement 101

Join Edward Jones Financial Advisor, Seth Thompson, for an educational Q&A session centered around retirement planning. In these sessions, he will share his knowledge of financial planning and advising experience to help you plan for your financial future. Whether you are just beginning to plan for your future or retirement is near, all are welcome and encouraged to attend. Topics to be discussed, among others, will include: pensions, 401(k)s, Social Security, healthcare costs, savings and withdrawal rates, etc.

Irvin Local 2227

Mosaic Workshop—Pick Your Own Project

Come to this class and learn to cut, break and arrange glass to make a one-of-a-kind project. You can choose to make a planter, name plate, frame for a picture or mirror or bring something of your choice. Don't miss out on this fun class!

Mon Valley ICD

Mondays, 4/25/22 to 5/16/22

8:30 am to 11:30 am, 4:00 pm to 7:00 pm

4 sessions

Liz Fortunato

I have been teaching stained glass classes at the Mon Valley ICD for several years.

After pursuing glass full time and receiving a BFA from Kent State University in 2010, I expanded my practice to include mixed media including paper, steel and found objects. Through these mediums, I received my MFA from the University of Washington in 2017.

I have since returned to my forever home just north of Pittsburgh to remodel and build my studio in a former church. I am the store manager and educational director at Spring Street Studios in Zelienople.

NEW Woodworking Fundamentals

This is a beginner to intermediate class on the fundamentals of woodworking. Whether you have absolutely no experience or you have completed several projects this class is for you. It is designed to give the student a foundation for their journey into the hobby and profession of woodworking. Topics covered will include, measuring and cutting lumber basics, tools to get started, understanding and buying lumber, wood grain and how to read it, dimensioning lumber, basic joints, dealing with wood movement, planning your project, basic finishing and more.

Mon Valley ICD

Tuesdays, 2/8/22 to 2/15/22

8:30 am to 11:30 am, 4:00 pm to 7:00 pm

3 sessions

Zachary Amend

How to Make Your Own Stocks & Sauces

Improve the depth of flavor in your stocks & sauces with this essential kitchen skill. Come to this class if you want to take your sauces & stocks to the next level. Homemade, high-quality stocks are the foundation for sauces, soups and many other dishes. You will learn the process that will improve the flavor of your cooking immensely.

ET Local 1219

Mondays, 3/7/22 to 3/14/22

8:30 am to 11:30 am, 4:00 pm to 7:00 pm

Justin Lewis

Upholstery

One of the Mon Valley's most popular classes! Learn how to reupholster, cut fabric, tie springs, and do frame repair. Other skills covered will be hand and machine sewing, antique restoration, chair reupholstering, boat covers, tarps and more. Instructor Lou of Heinle Upholstery will identify small projects students can bring to work on; such as chair cushions, tractor seats, car and truck seats, small chairs and stools. Students are responsible for all fabric and supplies necessary for their projects, which can be purchased through the instructor.

Mon Valley ICD

Tuesdays, 1/25/22 to 4/5/22

4:00 pm to 7:00 pm

10 sessions

Lou Heinle

Small Engine Repair

One of the Mon Valley's most popular classes! Starting with the basics, learn the how's and why's of small gas engines, 2 and 4 cycle engines, and air-cooled overhead valve small engines. During the hands-on portion, you will be able to bring in your own equipment, troubleshoot and repair it to your satisfaction. The instructor will oversee and guide you in your work. Repairs can consist of anything from minor tune-ups to complete overhauls.

Irvin Local 2227

Wednesdays, 1/26/22 to 3/30/22

Storytelling in Pictures

Join us as we go "on assignment" to a local business to tell their story in pictures. I will demonstrate how I scout locations, looking for "the good light," different angles, and details that illuminate the story. I will use a simple equipment kit in this shoot, including a Sony digital camera and lenses, tiny LED lights, and my iPhone. I will discuss my methodology in choosing the images as I see them evolve.

Day two will be at ICD headquarters to view, edit, and process a set of photos from the shoot. Using Lightroom, I'll demonstrate how I edit, color correct, and enhance files for client delivery.

Using visual storytelling techniques, you will elevate your photography of family, friends, and vacations. Imagine making a beautiful story of your next backyard barbecue.

Tuition Assistance

All USW members employed by U.S. Steel are eligible to receive up to \$2,500 annually in tuition assistance toward an approved, accredited program.

Additionally, Tuition Assistance provides reimbursement up to \$2,500 annually to each worker for tuition, books and lab fees for courses accessed through accredited institutions. Courses can be either for credit or noncredit, traditional classroom style or online.

Students actively pursuing education for career advancement through an accredited degree program may qualify to combine their funds up to \$4,500 per year until completion. Contact the ICD Coordinator to complete an Issuance 14 EDP (Educational Development Plan) to begin the approval process.

Check this box if you are interested in learning more.

Check this box if you are interested in learning more.

1. Please complete this registration form and email it to your ICD Coordinator or call the ICD at 412-460-0390.

Morgan Stanley

You have goals. We can help you reach them.

The **Morgan Stanley Financial Wellness Program** helps empower you to take hold of your financial life. It gives you direct access to personalized online resources and the valuable advice of a Financial Advisor.

Our **Financial Wellness digital portal** begins with a financial assessment to help uncover your needs. Then, you will be matched with personalized journeys and materials to help improve your financial wellbeing.

- 100+ Education Articles
- 20+ Pre-recorded Webinars
- Multiple Calculators

A dedicated **Financial Advisor** will work with you one-on-one to build a complimentary financial plan and offer more in-depth strategies:

- Pension Maximization
- In-service Withdrawals
- Insurance Services
- And more...

The cost of enrolling in the program is paid for by your negotiated ICD budget, so there is no upfront or out of pocket cost to you.

To start your financial journey, visit
<https://financialwellness.morganstanley.com/icdenroll>
or contact your ICD Site Coordinator today.

Christina Aquino, Financial Advisor – Willis Tower, 233 S. Wacker Dr., Suite 8600, Chicago, IL 60606

CRC 2752071 (10/19)

The National ICD has approved a number of Education Providers who offer a variety of learning opportunities. Some also offer discounted rates to our members!

Penn Foster (online)

Enroll with a school that helps 30,000+ people each year achieve their goals through affordable online education & training. Whether you're interested in building a new skill or furthering your career, Penn Foster can help by providing you access to high-quality career & college courses. Penn Foster's easy-to-use learning platform gives you access to books & study materials on the go, helping you learn when & where you want, at your own pace. There are 100+ accredited Career Certificate & Diploma programs & 100+ College Courses & Degrees available to you through Penn Foster's partnership with ICD. USW members receive a 15% discount off of tuition. Contact the ICD Coordinator to enroll.

DeVry University

ICD has a partnership with DeVry University & its Keller Graduate School of Management to bring you affordable, accredited degree programs with the flexibility you need for a work/life balance. You have the opportunity to experience a world-class education & earn your undergraduate or graduate degree. ICD participants are eligible for numerous benefits:

- Partner Group Tuition Rate (15% savings)
- Waived application fee saves you money & further simplifies our simple three-step application process for U.S.-based students
- Deferred billing plans help manage payment timing

SUNY EMPIRE
STATE COLLEGE

SUNY Empire State College

SUNY Empire State College educates 16,000 students per year in person, online, and through a blend of both, at campuses and learning hubs located in every region of New York State, across the country, and at eight international sites worldwide. Together with one of SUNY Empire's 800 faculty mentors, each student designs their own individualized pathway to a college degree that accommodates their schedule and awards credit for prior college-level learning. Associates, Bachelor's and Master's degrees are geared to adults and available in a wide variety of fields, including nursing, business, arts, and labor studies. USW-ICD participants receive a waiver of the \$50 admission fee and a one-time \$100 scholarship. You must enter a partner code when you apply to receive these benefits, request the code at ssalmah@icdlearning.org.

Details about our Lifelong Learning Providers are available on the National ICD web page at www.icdlearning.org, under the Resources Tab > Educational Partners. And while you're there, explore more information on the history of the ICD, News from the Field, & how to apply for the Tino Fulimeni Memorial Scholarship.
